Type a true/false question here, and click the correct response below.

Correct Answer:

True

False

### 3. Short Answer Question

Select 'Manage Quizzes'

Start a Quiz

Quick Question

Space Race

Exit Ticket

Manage Quizzes

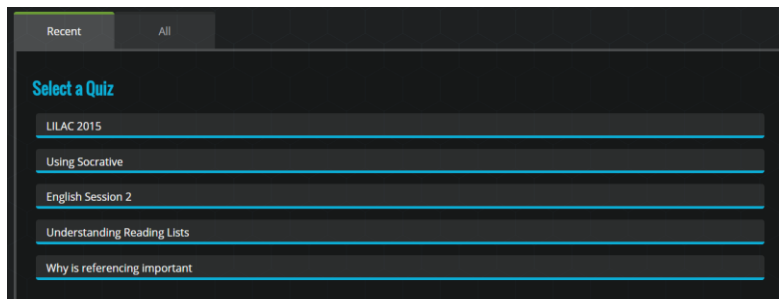

When you have finished, select 'Save and Exit'.

SAVE & EXIT

When you are running a quiz, you will see a 'Quiz in Progress' notification in the top right. If you click on 'Dashboard' or another screen, you can go back to an active quiz by pressing this button.

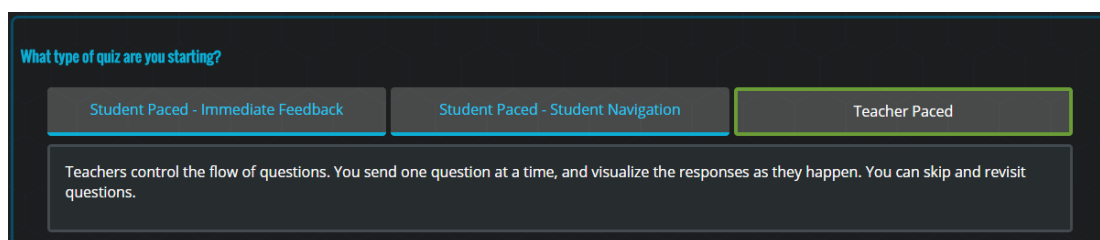

## Beginning a quiz in class:

Click Start a Quiz and select the quiz you would like to begin

Select Student- or Teacher-paced (the latter may be most useful in class, the former for quizzes in the students' own time).

You can also disable students name, randomize questions and answers

When students are logged in, check progress using the 'students answered' bar, and when all (most!) have completed the questions, click 'How'd we do?' to display the answer given.

Click next to move on. Students will see questions appear on their screens as you move through the quiz.

You can select 'Finish' at any time, and save a copy of your answers as PDF, or discard.

## How do students log in?

1. Socrative.com and select 'Student Login'.
2. Your room number is displayed at the top of your screen as teacher – students must enter this to join the room.
3. Students can then answer the questions as you click 'Next' through the quiz.

**0/1** students answered

One student is logged in, but hasn't answered the question yet.

**1/1** students answered

One student is logged in and has completed the question.
